

How To Instructions

Black & Ivory Flourish Favour Bonbonniere Boxes

These are so simple and such beautiful boxes. Because they are sold individually you can buy as little or as many as you like.

Six Simple Steps

1. Squeeze the edges of the box so that the bottom panels move into place.

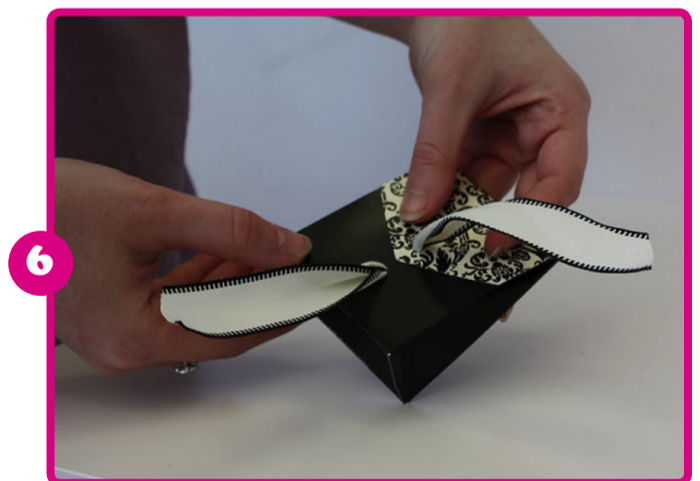

2. Now bend the side panels using the fold as a guide, to create a triangle shape. Pinch the top of the lid closed and fold over the lid.

3. Use your finger to pop the holes from the front of the box.

4. Thread the ribbon through the bottom hole, pulling through until half the ribbon is left

5. Now bring the ribbon back through the second hole to the outside of the box and through the hole in the lid.

6. Tie ribbon in a double knot to finish
